

Ajouter Deux Fractions Propres (A)

Nom: _____

Date: _____

Note: _____

Calculez chaque somme.

1. $\frac{3}{4} + \frac{3}{4} = \underline{\quad} = \underline{\quad} = \underline{\quad}$
Résoudre Simplifier Conversion ↓

2. $\frac{2}{8} + \frac{7}{8} = \underline{\quad} = \underline{\quad}$

3. $\frac{8}{9} + \frac{3}{9} = \underline{\quad} = \underline{\quad}$

4. $\frac{5}{6} + \frac{2}{6} = \underline{\quad} = \underline{\quad}$

5. $\frac{4}{8} + \frac{7}{8} = \underline{\quad} = \underline{\quad}$

6. $\frac{6}{8} + \frac{3}{8} = \underline{\quad} = \underline{\quad}$

7. $\frac{3}{7} + \frac{6}{7} = \underline{\quad} = \underline{\quad}$

8. $\frac{3}{4} + \frac{2}{4} = \underline{\quad} = \underline{\quad}$

9. $\frac{7}{8} + \frac{6}{8} = \underline{\quad} = \underline{\quad}$

10. $\frac{5}{6} + \frac{3}{6} = \underline{\quad} = \underline{\quad} = \underline{\quad}$
