

Ajouter Deux Fractions Propres (J)

Nom: _____

Date: _____

Note: _____

Calculez chaque somme.

1. $\frac{6}{8} + \frac{4}{8} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

2. $\frac{2}{3} + \frac{2}{3} = \underline{\quad} = \underline{\quad}$

3. $\frac{3}{9} + \frac{8}{9} = \underline{\quad} = \underline{\quad}$

4. $\frac{3}{4} + \frac{2}{4} = \underline{\quad} = \underline{\quad}$

5. $\frac{5}{7} + \frac{3}{7} = \underline{\quad} = \underline{\quad}$

6. $\frac{4}{9} + \frac{6}{9} = \underline{\quad} = \underline{\quad}$

7. $\frac{2}{9} + \frac{8}{9} = \underline{\quad} = \underline{\quad}$

8. $\frac{4}{5} + \frac{4}{5} = \underline{\quad} = \underline{\quad}$

9. $\frac{2}{4} + \frac{3}{4} = \underline{\quad} = \underline{\quad}$

10. $\frac{8}{9} + \frac{2}{9} = \underline{\quad} = \underline{\quad}$
