

Ajouter Fractions Propres e Improples (D)

Nom: _____

Date: _____

Note: _____

Calculez chaque somme.

$$1. \frac{2}{8} + \frac{29}{9} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$2. \frac{1}{3} + \frac{12}{8} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$3. \frac{7}{8} + \frac{15}{7} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$4. \frac{2}{4} + \frac{5}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$5. \frac{3}{5} + \frac{22}{19} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$6. \frac{2}{5} + \frac{23}{9} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$7. \frac{2}{4} + \frac{13}{7} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$8. \frac{1}{3} + \frac{28}{20} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$9. \frac{5}{7} + \frac{45}{13} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$10. \frac{1}{2} + \frac{21}{13} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$
