

Ajouter Fractions Propres e Impropres (E)

Nom: _____

Date: _____

Note: _____

Calculez chaque somme.

$$1. \frac{1}{6} + \frac{5}{2} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$2. \frac{7}{9} + \frac{4}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$3. \frac{1}{3} + \frac{25}{15} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$4. \frac{2}{4} + \frac{48}{20} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$5. \frac{2}{6} + \frac{31}{12} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$6. \frac{7}{9} + \frac{24}{18} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$7. \frac{4}{8} + \frac{5}{4} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$8. \frac{4}{7} + \frac{23}{14} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$9. \frac{1}{4} + \frac{20}{12} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$10. \frac{7}{9} + \frac{21}{18} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$
