

Ajouter Deux Fractions Propres (J)

Nom: _____

Date: _____

Note: _____

Calculez chaque somme.

$$1. \frac{4}{9} + \frac{1}{8} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$2. \frac{1}{4} + \frac{6}{13} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$3. \frac{1}{2} + \frac{2}{11} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$4. \frac{1}{9} + \frac{4}{7} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$5. \frac{1}{6} + \frac{3}{7} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$6. \frac{1}{8} + \frac{11}{15} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$7. \frac{1}{6} + \frac{4}{5} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$8. \frac{2}{9} + \frac{9}{14} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$9. \frac{1}{9} + \frac{2}{13} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$10. \frac{2}{9} + \frac{3}{17} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$
