

Ajouter Fractions Propres e Impropres (B)

Nom: _____

Date: _____

Note: _____

Calculez chaque somme.

$$1. \frac{7}{8} + \frac{27}{7} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$2. \frac{2}{9} + \frac{31}{11} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$3. \frac{1}{5} + \frac{16}{13} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$4. \frac{4}{5} + \frac{22}{17} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$5. \frac{1}{6} + \frac{11}{5} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$6. \frac{2}{3} + \frac{12}{5} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$7. \frac{7}{9} + \frac{21}{17} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$8. \frac{6}{7} + \frac{5}{2} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$9. \frac{1}{2} + \frac{37}{19} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$10. \frac{2}{9} + \frac{34}{13} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$
