

Ajouter Deux Fractions Mixtes (E)

Nom: _____

Date: _____

Note: _____

Calculez chaque somme.

$$1. \quad 4\frac{4}{8} + 3\frac{3}{8} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$2. \quad 1\frac{4}{5} + 1\frac{4}{5} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$3. \quad 5\frac{8}{9} + 3\frac{6}{9} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$4. \quad 5\frac{1}{5} + 4\frac{3}{5} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$5. \quad 1\frac{1}{7} + 2\frac{4}{7} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$6. \quad 1\frac{2}{5} + 1\frac{4}{5} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$7. \quad 1\frac{2}{3} + 5\frac{2}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$8. \quad 3\frac{3}{7} + 2\frac{6}{7} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$9. \quad 5\frac{4}{8} + 1\frac{7}{8} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$10. \quad 5\frac{3}{4} + 1\frac{2}{4} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$
