

## Ajouter Deux Fractions Mixtes (H)

Nom: \_\_\_\_\_

Date: \_\_\_\_\_

Note: \_\_\_\_\_

Calculez chaque somme.

$$1. \ 3\frac{1}{2} + 1\frac{1}{2} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$2. \ 5\frac{1}{9} + 3\frac{2}{9} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$3. \ 5\frac{1}{2} + 2\frac{1}{2} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$4. \ 2\frac{1}{6} + 5\frac{1}{6} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$5. \ 3\frac{1}{2} + 4\frac{1}{2} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$6. \ 2\frac{5}{6} + 2\frac{5}{6} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$7. \ 2\frac{1}{3} + 5\frac{2}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$8. \ 1\frac{2}{4} + 4\frac{2}{4} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$9. \ 2\frac{3}{4} + 1\frac{1}{4} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$10. \ 5\frac{1}{6} + 3\frac{5}{6} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$
