

Ajouter Deux Fractions Mixtes (I)

Nom: _____

Date: _____

Note: _____

Calculez chaque somme.

$$1. \ 2\frac{1}{5} + 2\frac{4}{5} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$2. \ 3\frac{2}{6} + 4\frac{4}{6} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$3. \ 5\frac{1}{3} + 1\frac{2}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$4. \ 3\frac{1}{8} + 3\frac{7}{8} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$5. \ 3\frac{4}{6} + 5\frac{2}{6} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$6. \ 3\frac{1}{4} + 3\frac{3}{4} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$7. \ 1\frac{1}{3} + 5\frac{2}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$8. \ 3\frac{8}{9} + 5\frac{4}{9} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$9. \ 5\frac{5}{6} + 2\frac{5}{6} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$10. \ 4\frac{1}{4} + 1\frac{1}{4} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} = \underline{\quad}$$
