

Ajouter Deux Fractions Mixtes (E)

Nom: _____

Date: _____

Note: _____

Calculez chaque somme.

$$1\frac{1}{2} + 2\frac{1}{2} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$1\frac{4}{5} + 2\frac{4}{5} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$1\frac{2}{4} + 1\frac{1}{4} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$1\frac{1}{2} + 1\frac{1}{2} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} =$$

$$1\frac{1}{8} + 3\frac{4}{8} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$1\frac{5}{9} + 2\frac{2}{9} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$1\frac{2}{6} + 3\frac{3}{6} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$2\frac{3}{5} + 1\frac{3}{5} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$2\frac{2}{3} + 1\frac{2}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$1\frac{4}{6} + 2\frac{3}{6} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$
