

## Ajouter des Negative Fractions (C)

Nom: \_\_\_\_\_

Date: \_\_\_\_\_

Note: \_\_\_\_\_

Calculez chaque somme.

$$1. \left(-\frac{7}{9}\right) + \frac{4}{8} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$2. \left(-\frac{1}{2}\right) + \left(-\frac{1}{3}\right) = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$3. \left(-\frac{9}{12}\right) + \frac{10}{11} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$4. \left(-\frac{1}{2}\right) + \frac{1}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$5. \left(-\frac{6}{11}\right) + \frac{3}{10} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$6. \left(-\frac{1}{2}\right) + \frac{2}{7} = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$7. \left(-\frac{6}{9}\right) + \frac{4}{11} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$8. \left(-\frac{5}{10}\right) + \frac{3}{11} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$

$$9. \left(-\frac{1}{9}\right) + \left(-\frac{3}{5}\right) = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$10. \left(-\frac{2}{3}\right) + \frac{2}{8} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$$
