

# Mesure d'un Rectangle (A)

Calculez les mesures manquantes pour chaque rectangle.

1.

$$P = 24 \text{ m}$$
$$A = 36 \text{ m}^2$$

2.

$$P = 40 \text{ cm}$$
$$A = 96 \text{ cm}^2$$

3.

$$P = 16 \text{ hm}$$
$$A = 12 \text{ hm}^2$$

4.

$$P = 10 \text{ mm}$$
$$A = 6 \text{ mm}^2$$

5.

$$P = 36 \text{ hm}$$
$$A = 72 \text{ hm}^2$$

6.

$$P = 48 \text{ mm}$$
$$A = 135 \text{ mm}^2$$

# Mesure d'un Rectangle (A) Réponses

Calculez les mesures manquantes pour chaque rectangle.
